PLAIN FACTS FOR PLAIN FARMERS.—Farmers are often complaining of the burthen of high taxes that weigh them down. But it is a notorious fact that ninety-nine hundredths of our farmers lose and waste more valuable manures on their premises annually than would pay all their taxes for five years. We think we hear some of our farmers say that

When Mr. Cabell insisted on the superior orthodoxy of the Whig over the Democratic party, he probably had not read the following text and commentary, which we take from the Albany Journal, a leading Seward Whiz paper:

REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING PERRUARY 12, 1852

REMARKS .- Since our last Thursday's weekly review, we have had several days of damp wet weather, and one heavy rain, but as yet we have heard of no improvement in the wa ter courses, by which means, only, a considerable quantity of timber, lumber, and naval stores can reach our market .-The weather is fair, and a fresh Northwester this morning. If there has been a freshet above, produce will begin to come German Galiot Agnetha, Hollander, for Amsterdam, by in in the course of a few days, when we may expect a different state of things in the market from what has been going on for some time past.

> BACON .- N. C. cured bacon comes in in small lots, and sales dull at quotations, with transactions in small way at 10 a 10½ cents for hog round, and 12 cents per lb. for prime hams, We quote N. C. cured at 10 a 101 cents per lb., hog round .-Old Western bacon is held at 9 a 95 cts. per lb. See table. BEEF CATTLE .- A lot of 24 head was brought in a few days since, by the Mossrs. Ashford from Sampson, and taken immediately by Messrs. McKinne & King, butchers, at 64 cents per lb. net. It is a very fine article, and if our with a full set of Philosophical, Astronomical and Chemical

friends in the country would pay proper attention to fat- Apparatus. The opportunities presented for a sound and acting beef for market, they might always obtain good complished Education, are equal to those of any similar Inprices. We believe the Messrs. Ashford generally obtain higher prices for their beef than almost any one else, simply because they take pains and offer nothing but a choice artitle with Mr. Bradham, as he is authorized to settle said bu- cle for sale. In this instance they have realized I cent more than the highest prices of the market. Conn.-There has been no arrivals of corn (if we except

ome 1600 bushels to order) since our last, and we learn that the village. the stock is diminishing considerably fast. The last sales were at 65 cents from vessel. Store rates are higher. Corron.-We note the sale of 11 bags, two or three days since, at 7 cents per lb.

COFFEE .- Sales of 50 bags Rio at 84 cents per lb., 90 days. Eggs-Are a little lower, and we alter our figures accordingly. See table. FEATHERS-Continue scarce and in demand, last sales at

40 cents per lb. FLOUR .- We hear of no wholesale transactions, and our figures must be considered as merely nominal.

HAY .- 125 bales Eastern hay sold in the first part of this week at 95 cents per 100 lbs., cash. LARD .- The stock of North Carolina lard is more plenty, | 24 years.

and we note small sales in barrels at 10 and kegs at 104 cts.

morning went at \$11 for flooring and \$8 per, M. for wide boards.

Molasses .- None received this week, and none in first hands. We erase quotations. NAVAL STORES .- The sales since last Thursday have reached a little upwards of 3,500 bbls. The soft article has been

generally steady, at \$2 35-the hard has fluctuated, from \$1 40 to \$1 50. On Friday, it went at \$1 40; Saturday, at \$1 45, Monday \$1 50, Tuesday \$1 40 a \$1 45. Wednesday \$1 40 a \$1 50, the highest price being paid for lots of all hard, and the lowest for mixed lots of soft and hard. To-day the sales have reached 708 bbls., included in above estimate, at \$2 35 for soft, \$1 40 for hard mixed lots, and \$1 50 for lots of all hard. Sales confined to distillers. In spirits turpentine, we note sales footing up for the week, of 610 bbls., at 32 cents per gallon. Stock light. The sales of rosin have reached only about 400 bbls., at 95 cents for the common article, with but little offering, or to be had. Tar has declined. On Monday, 151 bbls, changed hands at \$1 50 per bbl.-Since then, the only sale we hear of was made to-day-30 a 40 bbls, at \$1 30 per bbl.-a falling off in price of fully 20 cents per bbl.

cents per bushel. Both articles are wanted. PORK .- We note no change in barrel pork. See table .-

Potatoes .- Sweet sell as they arrive in quantities to suit at 50 a 60 cents per bushel. Irish planting potatoes scarce. and selling from store at \$4 per bbl. at retail. Shingles .- The price of shingles is somewhat unsteady, the sales of the week foot up about 100,060 at prices rang-

ing from 2 624 to \$3 per M for common cypress, closing today at highest figure. STAVES .- We hear of nothing doing in this article. TIMBER.-The receipts are extremely light. For quota-

tions see table. FREIGHTS-Continue scarce, we believe however coastwise essels find no difficulty in obtaining cargoes very readily. Foreign freights are somewhat difficult to obtain, and vessels in some cases have to wait.

BALTIMORE, Feb. 19th.—Flour and Ment.—The floor market, to-day, was again active, and holders firm. Sales of 2,300 bbls. Howard street brands at \$4 25, and 2,800 bbls. City Mills at \$4 25. Whiskey.—Sales in hhds. at \$20\frac{1}{2}\$ c., and in bbls. at \$21\frac{1}{2}\$ c. per gal.

PHILADELPHIA, Feb. 10 - The export demand for lour continues limited, and the only sale reported is about 1,000 bbis. standard and good brands, at \$1 41 per bbi. The last sale of Kye Flour was at \$3 50, and Corn Meal at \$3

124 per bbl.

Wheat.—There is a fair deniand, and 1,000 bushels prime
Pennsylvania Red sold at 92 a 93 ets. per bushel, and a small
lot of white at \$1 02. Corn is dull and lower; we quote yellow at 64 a 65 cents Whiskey-sales of barrels at 214 and bhds. at 201c.

NEW YORK, Feb. 10 .- The cotton market has been acive to-day, with sales of 5,000 bales at 84 for strict middling uplands, and \$\frac{1}{2}\$ for strict middling Orleans.
